The low economic growth appears to have bottomed out and a gradual increase in economic activity is expected in near future. The medium term to long term growth prospects look positive in view of the Government's determination to bring in reforms.

With the global economy expected to recover moderately, particularly on account of performance in some advanced economies, the economy can look forward to better growth prospects in 2015-16 and beyond. The Economy is expected to grow in future at a higher rate than in 2014-15.

Economic situation in the country will improve significantly in the upcoming year, the Economy survey raised concerns over growth pattern in exports, construction and mining activities. Investment activity, which is slowly picking up, needs to be established on a stronger footing.

The estimation made by International Monetary Fund (IMF) & Central Statistical office have made projection of growth to the extent of 7.5% during the financial year 2015-16. The company has been granted Certification for CE Marking, ISO 14001:2004 & OHSAS 18001:2007 which were reported last year as under process of certification.
