MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

A. Economic Scenario and Outlook:

India has emerged as the fastest growing major economy in the world and it is expected to be one of the strong economic powers in the world over the next 10-15 years. However the GDP growth reduced to 6.6% in the year 2017-18 as against the growth of 7% during last three years.

Though the year 2017-18 began on a positive note with demand showing signs of revival & with the impact of demonetization fading, however, implementation of the Goods and Service Tax (GST) from 1st July, 2017 again led to uncertainty and loss of momentum which had an impact on the economic growth.

The company turnover declined marginally during the year 17-18 inspite of pending orders. The market situation and sentiments were affected adversely owing to uncertainties arising out of initial difficulties and confusions in implementation of GST and at the same time insolvency and liquidity crunch in some large companies. The result was deferment of lifting goods already ordered and also deferment of implementation of expansion or new addition plans in almost all sectors of industries. These factors of short term nature were responsible in decline of our turnover.

GST has been the biggest tax reform in history of independent India and will have very positive long term effect on India's economy and growth. GST and other reforms will have positive effect on ease of doing business, removal of multiple taxes and complex taxation structure and will enable highly efficient logistic and supply chain mechanism.

Having recorded a Gross Domestic Product (GDP) of US \$ 2.6 trillion for 2017, India became the world's sixth largest economy. This will bring India amongst one of strong economies in the world and with increased GDP growth above 7.4% India may become fastest growing economy in the world.

The Government of India, under the Make in India initiative with other initiatives & demand arising out of high pace of infrastructure growth, will give boost to the contribution made by the manufacturing sector and aims to take it up to 25 per cent of the GDP from the current 17 per cent.

These Government initiatives will have positive outcome in years to come.

The above improvements and changes of long term nature will have a positive turnaround effect in country's economy and Fluidomat business will also be benefitted. The order booking during April to July 2018 has already shown growth.

With improved credibility and positive image of our country number of enquiries from international market for scoop control couplings for critical applications of Boiler Feed Pump and Fan are flowing in. These applications have large business potential associated with positive growth in revenue.

Fluidomat has intrinsic strength of indigenous design & production technology alongwith accreditation of ISO 9001-2008, ISO 14001-2004, OHSAS 18001-2007, which also contribute strongly to earn Global Business.

Program for modernization of plant & machinery will continue from its internal resources and committed to continual quality improvements, R & D & innovations.

Your Company deals only in the one segment i.e. manufacturing and sale of the hi-tech products "Fluid Couplings" which are mainly used in various sector of industries including Thermal Power Plants, Steel, Metal, Cement, Paper, Chemical, Fertilizers, Coal and Ore-mining and Port handling facilities, etc. New projects in these sectors have important contribution towards growth and profitability of the Company.

C. Quality Management System:

The company continued to be certified under ISO:9001:2008 by British Standard Institution –BSI Management system for the Company's quality system. The Quality Management System in the Company is well defined and is well in place.

Internal Audit is conducted by independent firm of auditors. Internal Auditors regularly check the adequacy of the system, their observations are reviewed by the management and remedial measures, as necessary, are taken. Internal Auditors report directly to the Chairman of the Audit Committee to maintain its objectivity and independence.

E. Opportunities and Threats:

Since your company is catering the needs of almost all sectors of Industries, therefore it has a good business cushion against recession in one or other sector as the other sector may improve concurrently.

The Indian Government focus on infrastructure growth will offer more opportunities to capital goods sector.

The Banking system in the domestic market is facing an unprecedented situation of uncertainty and economic challenge due to non-performing assets (NPAs). Though the Government and the central Bank are seized of the gravity of the situation and are moving ahead with initiative to contain and resolve the problem, global macro-economic factors, beyond the control of the domestic economy can disrupt the equilibrium. In such a scenario the entire capital goods sector itself will face difficulties due to lack of new projects and liquidity crisis.

Apart from the normal risk demand-supply conditions, raw material prices, competitor strategies, changes in government regulations, tax regimes, economic developments within the country and globally no major risks are foreseen.

Annexure 'B' to Independent Auditors' Report

(Referred to Para 2(f) under the heading of "Report on Other Legal and Regulatory Requirements" of our report of even date to the members of Fluidomat Ltd. for the year ended 31st March, 2018)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **FLUIDOMAT LIMITED** ("the Company") as of 31st March, 2018 in conjunction with our audit of the Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls over Financial Reporting, both applicable to an audit of the Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on, the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(ii) Operating Cycle:

Company's operating cycle shall be 12 months beginning from 1st of April to 31st of March every financial year.

3. Significant Accounting Policies:

The financial statements have been prepared using the significant accounting policies and measurement basis summarized below:-

A. Current and non-current classification

Assets and liabilities are classified as current if expected to realize or settle within twelve months after the balance sheet date. Deferred tax assets and liabilities are classified as non current assets and non-current liabilities, as the case may be.

B. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs with two decimals thereof as per the requirement of Schedule III, unless otherwise stated.

C. Use of estimates and judgments

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognized in the period in which the results are known/materialized. The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

D. Property, plant and equipment

The Company has applied for the one time transition exemption of considering the carrying cost on the transition date i.e. April 1, 2016 as the deemed cost under IND AS hence regarded thereafter as historical cost.

All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

E. Depreciation methods, estimated useful life and residual value

Depreciation on property, plant and equipment is provided on prorata basis on straight-line method using the useful life of the assets estimated by management and in the manner prescribed in Schedule II of the Companies Act 2013. The useful life is as follows:

S.no.	Description of Assets	Useful life as per the Companies Act
1	Building	30 Years
2	Plant & Machinery	10-15 Years
3	Office Equipment	5 Years
4	Furniture	10 Years
5	Computer	3 Years
6	Software & Web sites	6 Years
7	Vehicle	8-10 Years

On the basis of technical assessment made by the management, it believes that the useful life as given above best represent the period over which the assets are expected to be used.

Leasehold land is amortized on a straight line basis over the unexpired period of their respective lease.

The assets residual values and useful life are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

F. Intangible assets

Intangible assets with finite useful life that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful life. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

The Company has elected to continue with the carrying value of all its Intangible Assets, recognized as on 31 March 2016, as the deemed cost for the purpose of transition to IND AS.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss.

G. Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand and operating balances.

H. Inventories:

Inventories of raw materials and stores and spares are valued at weighted average cost net of duties and finished goods and Stock-in-Process are valued at lower of cost or net realizable value and Scrap is valued at net realizable value.

I. Investments and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- (1) Those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and

(2) Those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are accounted in the Statement of Profit and Loss.

(iii) Impairment of financial assets

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk..

J. Impairment of non- financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses including impairment on inventories are recognised in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

K. Segment Reporting:

Since the Company operates in one segment only, segment reporting as required IND-AS is not applicable.

L. Borrowing costs:

Borrowing cost that is directly attributable to the acquisition of qualifying assets is capitalized for the period until the Assets is ready for its intended use. Other borrowing costs are recognized as an expense in the period for which it is incurred.

M. Contingent Liability:

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

N. Provisions:

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

O. Revenue recognition:

Revenue is measured at the value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade allowances, rebates and discounts.

The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below.

Sale of goods:

Sales are recognized when substantial risk and rewards of ownership are transferred to customer, In case of domestic customer, generally sales take place when goods are dispatched or delivery is handed over to transporter, in case of export customers, generally sales take place when goods are shipped onboard based on bill of lading.

Revenue from services:

Revenue from services is recognized in the accounting period in which the services are rendered.

P. Employee Benefits:**(i) Current Employee Benefit:**

- (1) Liabilities for wages and salaries, including non monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee service upto the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.
- (2) Contribution to defined contribution scheme such as Provident Fund, Family Pension Fund and ESI Fund are charged to the Statement of Profit & Loss.
- (3) Leave encashment is charged to revenue on accrual basis.

(ii) Other long-term employee benefit obligations**(a) Gratuity**

The Employee's Gratuity Fund Scheme, which is defined benefit plan, is managed by Trust maintained with Life Insurance Corporation of India (LIC). The difference, if any, between the actuarial valuation of the gratuity of employees at the year end, valuation done by LIC and the balance of funds with Life Insurance Corporation of India is provided for as assets/ (liability) in the books.

Q. Foreign Currency Transactions:

- (i) The financial statements are presented in Indian rupee (INR), which is Company's functional currency.
- (ii) Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction.
- (iii) Any income or expenses on account of exchange difference either on settlement or on translation is recognized in the Statement of Profit and Loss.
- (iv) Remittances not received until the end of the year are considered at the closing exchange rate as applicable. Difference between realization against debtors in the subsequent year and outstanding debtors is recognized as exchange differences in the Statement of Profit and Loss.

R. Income tax:**a. Current Tax:**

Current tax is determined as the amount of tax payable in respect of taxable income for the year. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

b. Deferred Tax:

Deferred tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred tax arises from the initial recognition of an asset or liability that effects neither accounting nor taxable profit or loss at the time of transition.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled

S. Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit for the period attributed to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all potentially dilutive equity shares

T. Government Grants:

Capital Subsidy shown under Capital Reserves.

U. Dividend:

Provision is made for the amount of any dividend declared on or before the end of the reporting period but remaining undistributed at the end of the reporting period, where the same has been appropriately authorized and is no longer at the discretion of the entity.

V. Related Party Disclosure:

Disclosures, regarding related parties and transactions with them, as required in terms of Indian Accounting Standard 24, has been made at the relevant places in the notes to accounts.

3A. Significant accounting judgments, estimates and assumptions:

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) Property Plant & Equipment

The company has estimated the useful life of Property, Plant and Equipment and Investment Property as per the useful life prescribed in Schedule II of the Companies Act, 2013.

(b) Taxes

- (i) The Company's tax charge is the sum of the total current and deferred tax charges. The calculation of the Company's total tax charge necessarily involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process.
- (ii) Accruals for tax contingencies require management to make judgments and estimates in relation to tax related issues and exposures.
- (iii) The recognition of deferred tax assets is based upon whether it is more likely than not that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. Where the temporary differences are related to losses, the availability of the losses to offset against forecast taxable profits is also considered. Recognition therefore involves judgment regarding the future financial performance of the particular legal entity or Company in which the deferred tax asset has been recognized.

**(c) Defined benefit**

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using valuations done by LIC. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of long term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation. Future salary increases and pension increases are based on expected future inflation rates for the respective countries.

3B. Recent Accounting Pronouncements**(Disclosure in compliance of para 30 & 31 of IND AS 8)**

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2018, notifying Ind AS 115 - 'Revenue from Contracts with Customers' and consequential amendments to various Ind AS standards. The amended Rules also notified amendments to Ind AS 12 - 'Income Taxes', Ind AS 21 - 'The Effect of Changes in Foreign Exchange Rates'. The amendments are effective from accounting periods beginning from 1st April, 2018.

Ind AS 115 – 'Revenue from Contracts with Customers':

This standard establishes a single comprehensive model for accounting of revenue arising from contracts with customers. The Company is currently assessing the impact of application of Ind AS 115 on the Company's financial statements.

Amendments to Ind AS 12 – 'Income Taxes':

The amendments clarify the requirement for recognizing deferred tax assets on unrealized losses on debt instruments that are measured at fair value. The amendments also clarify certain other aspects of accounting for deferred tax assets. The changes will not have any material impact on the financial statements of the Company.

Amendments to Ind AS 21 – 'The Effect of Changes in Foreign Exchange Rates':

The amendments clarify translation of advance payments denominated in foreign currency into functional currency at the spot rate on the day of payment. The guidance aims to reduce diversity in practice. The changes will not have any material impact on the financial statements of the Company.

Note: The previous AS figures have been reclassified to confirm to Ind AS presentation requirements for the purposes of this note.

A. Other Financial Assets :

Under the previous AS, Fixed deposits with more than maturity period one year were included in cash & cash equivalents and unpaid dividend account balances with bank were also included in cash & cash equivalents .

Under the Ind AS fixed deposits with more than maturity period of one year were separately disclosed in heading under other financial assets and dividend accounts balances were disclosed in other than bank balances as per the requirement of Ind AS.

B. Proposed dividend:

Under the previous AS, dividends proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events and accordingly, provision for proposed dividend was recognized as a liability.

Under Ind AS, such dividends are recognized when the same is approved by the shareholders in the general meeting. Accordingly, the liability for proposed dividend including dividend distribution tax (DDT) of Rs. 1,48,25,054 as at 1st April, 2016 included under provisions has been reversed with corresponding adjustment to retained earnings.

Consequently, the total equity has been increased by an equivalent amount. The same has been recognized in retained earnings during the year ended 31st March 2017 as declared and paid. Proposed dividend including Dividend Distribution tax (DDT) liability as on 31st March 2017 amounting to Rs. 1,03,77,533 is also derecognized on that date with the corresponding increase in the retained earnings.

C. Other Current Liabilities:

Under the previous AS, current liabilities were included the amount of unclaimed dividend and current tax liabilities.

Under the Ind AS, the current liabilities were regrouped and amount of unclaimed dividend was transferred into the sub heading "Other Financial Liabilities" and current tax liabilities was transferred into the separate heading called "Current Tax Liabilities"
